

LAY PLANS TO CHECK SPREAD OF STRIKE

Present Phase Nears the
Critical Period.

342,000 REPORTED OUT

Labor's Board of Strategy Maps
Out Further Plans to
Bring Victory.

PITTSBURGH, Sept. 24.—While organized labor's board of strategy was in session here today mapping out further plans to bring victory to the union steel workers of the country in their struggle with the employers, the operating executives of the corporations involved were straining every nerve to check a spread of the strike.

Critical Period Near.

The present phase of the conflict is regarded by both sides as a critical period. The first rush and excitement of initiation of the strike is over. Reports indicate that there has not been a great movement of men into or out of the plants in the Pittsburgh district since the first big walkout and each side is guarding against a stampede. The various large plants and smaller concerns are crippled in varying degrees according to reports and managers responsible for the operation of steel mills, are in some cases not only trying to hold what they have but are trying to get on the offensive. The leaders of the strikers as shown by their decisions that the strike is spreading are not giving up the attack but predict that with the coming of more organizers they will gradually shut down all the important works. Secretary William Z. Foster of the strikers' national committee said today that he expected the Homestead plant of the Carnegie Steel company, principal subsidiary of the United States Steel Corporation, would be shut down by the end of the week.

Report 342,000 Out.

Secretary Foster announced late today that 342,000 men in the industry are on strike and that the situation was well in hand. This is a gain of 15,000, compared with his figures of yesterday. Only optimistic information came from the officers of the Carnegie and other steel companies in the Pittsburgh district, and they were at variance with those given out by the unions. The company officials maintained that the trend was into the mills. Increased forces, they declared were in evidence at all the important plants including Homestead, Clairton, Braddock, Duquesne and the Pittsburgh city mills of the Carnegie company. The strikers reported two of the smaller mills in the city closed, but this was denied by officers of these concerns, who said they were running but were short-handed.

Reports Conflicting.

The Jones and Laughlin Steel Company mills against which a drive has been started by the unions were reported by the management to be running nearly normal. At union headquarters it was said men in some of the plants of the company were gradually coming out.

Officers of the American Steel & Wire company and the American Sheet & Tube company also reported improved conditions in and about Pittsburgh.

In the outer Pittsburgh district small gains were reported for the larger steel mills. Conditions were said to be better from the standpoint of employers at New Castle and at Farrell, at both of which places there have been riots with the loss of life.

Organizers from the mine workers' union and other labor organizations are beginning to come into Pittsburgh district to assist those who have been campaigning here. Secretary Foster sent out an appeal several days ago to labor leaders asserting that hundreds of men have been wanting to join the various unions affected by the strike but there were no organizers to take them in hand.

Pittsburgh District Quiet.

The Pittsburgh district as a whole was comparatively quiet. Late in the day strikers attempted to hold a meeting on the borough line of McKeesport and Glassport. About 1,500 men assembled and the authorities of both places assisted by a detachment of state police ordered them to disperse. A fight was started in which, so far as police reports go, no one was seriously hurt. When the disturbance was over, the McKeesport police had taken twenty-four men into custody and sixteen others were in the hands of the Glassport authorities.

Several shots were fired it was declared. No one was struck, but a few in the crowd had their heads battered with police clubs. Chief of Police George Webb of Glassport was slightly hurt. He caught a man in the crowd in the act of drawing a pistol and pounced upon him. There was a rush at the chief, and he was rescued by a mounted state trooper who rode into the mob. The trooper was knocked down by the crowd's horse. The man who drew the pistol was arrested.

HOUSEHOLDERS WILL LOWER PRICES?

Chicago, Sept. 24.—Julius H. Barnes, federal wheat director, in an address today before the American Association of the Baking Industry, said he believed the high cost of living would be lowered by householders themselves. He expressed optimism for business also.

"The high cost of living can and will be lowered by the householders themselves," Barnes said. "This can be done by self denial of things not necessary to life and progress. Eat more bread and do with less luxuries."

He said he had not entirely approved of the government wheat price guarantee but thought the "overflow wheat acreage" will probably be corrected with the coming year.

GOMPERS ASSAULTS GARY

Rail Bill Also Target for
Labor Leader.

Declares Steel Head Dealt in a
"Flippant and Autocratic
Fashion" to Men.

Washington, Sept. 24.—Declaring that E. H. Gary, chairman of the United States corporation had dealt in a "flippant and autocratic fashion" with labor representatives, Samuel Gompers, president of the American Federation of Labor in summing up before the interstate commerce committee organizer labor's opposition to the anti-strike section of the Cummins' railroad bill said the steel strike was an example of the necessity for the use of the strike by labor unions.

Appearance of Mr. Gompers before the senate committee came at the end of the second day of continued attack by labor leaders against the provision of the Cummins' bill which would make striking railroad men conspirators against commerce and liable to fine and imprisonment.

Nothing to Talk Over

"When employers say there is nothing to talk over, when they refuse to meet representatives of labor, when they say these representatives represent nobody how else is there to convince them but by a strike? Look at the steel strike now. That was the position Mr. Gary took. A letter to him from me sent last June is still unanswered."

"A committee to see him was greeted with the word that he had nothing to discuss with them. He treated us in flippant and autocratic fashion. The strike is now on much to my regret because I wanted to see it delayed until after the president's industrial conference."

"But if you knew conditions in districts the United States Steel corporation controls you would understand. We've done and will continue to do, our level best to keep things going. But if you take from us our last effective form of appeal for necessary things as this bill does whatever comes is on your head and not on ours."

General Unrest Taken

Declaring with the subject of general unrest, Mr. Gompers asserted that labor organizations were experiencing difficulty in holding radicals in check.

"The disposition is so great now," he said, "that democracy is sneered at by certain groups who say that it is only a pretext which the employing classes hold up to cheat workers and that workers can only secure justice by revolution. Nothing would give the people opportunity to spread their doctrines like the passage of this bill. Nothing would create so much unrest."

Senator Underwood of Alabama debated the issue with the witness at some length.

"Back of this bill," the senator remarked, "is the fear of the general public that at some time a general railroad strike will be called. Isn't there any way such a disaster can be prevented?"

"I can't suggest any proposition which will prevent a general strike," Mr. Gompers returned. "This I do know; fair treatment of labor will go far to prevent it."

"This kind of legislation," President Furuseth of the Seamen's Union told the committee, "wiped out the sea power of the United States during the last century. Birds and cattle have the right to combine, this bill takes away that right for men. It leaves us at the mercy of employers. I've no hesitation in saying that the government can't be trusted with power to fix wages that kind of power is always abused."

FREE THOUGHT LEADER DIES

Porterville, Cal., Sept. 24.—John Elzezer Remsburg, one of the leaders of the Free Thought Movement in the U. S. for fifty years, who lectured throughout the country and wrote a number of books in free thought, died here yesterday aged 71. He was for many years a resident of Porterville, Kan.

GIVEN FORMER POWER

Washington, Sept. 24.—Without a record vote the house passed and sent to conference a bill granting authority to the interstate commerce commission to regulate rates with the same power it exercised prior to government control.

GOVERNMENT TAKES HAND IN STEEL STRIKE

Arrangements Complete for
Senate Investigation.

HEARINGS TO BE OPEN

Fitzpatrick and Gary Will Be
Called Before Committee
Next Week.

WASHINGTON, Sept. 24.—Arrangements were complete tonight for the beginning tomorrow of the senate labor committee's investigation of the nationwide steel strike. Chairman Kenyon announced receipt of assurances from John Fitzpatrick, chairman of the strikers' organization committee that he would be on hand to present "labor's side" of the controversy. While members of the committee were engaged in making final plans for the hearing, Senator Thomas, Democrat of Colorado, in an address in the senate declared the strike had been called on the flimsiest excuse, that its principal object was "to disturb and bedevil industrial conditions," and that the participation of hundreds of thousands of men in strikes throughout the country "becomes almost civil war."

Objects of Inquiry.

Primary objects of the senate investigation, Senator Kenyon said today will be the setting forth before the public of the real causes and objects of the strike. Fitzpatrick as well as Chairman Gary of the United States Steel corporation who is to appear on Wednesday according to Senator Kenyon's plan of procedure, first will be asked for a detailed statement then be subjected to cross-examination by all members of the committee. It is hoped to complete the inquiry and return a report to the senate within a fortnight. Senator Kenyon holds the hope that the investigation by enlightening the public may affect the progress of the strike.

In addition to data from both sides the committee seeks light on the failure of negotiations to avert the strike—why it was not postponed at President Wilson's request and why Chairman Gary refused to deal with the strike organizers.

Mr. Fitzpatrick's telegram to Senator Kenyon indicated that he would be accompanied by other representatives of the strikers. H. S. Rubin, their local counsel, today conferred with the committee chairman regarding other witnesses.

Testimony of all other witnesses may be deferred, however, until Mr. Gary is heard. The hearings will be open to the public.

HOLD FOUR UNDER \$25,000 BONDS

Chicago, Sept. 24.—Four men, three of whom the police say have confessed stealing \$234,000 from the Standard Oil company of Indiana payroll for its Whiting, Ind., plant last week while the money was in transit, were held in bonds of \$25,000 each by United States Commissioner Mason today.

The preliminary hearing was set for September 29. With the recovery today of \$15,500, the police and postal inspectors have accounted for all but \$97,400 of the loot which had been started by registered mail to a Whiting, Ind., bank.

The men held were Walter, Leo and William Filipkowski, brothers, and John Wejda, a postoffice clerk. William Filipkowski was arrested last night after about \$10,000 had been taken from a bank where he had deposited it.

FARMERS FAVOR U. S. OWNERSHIP

Washington, Sept. 24.—Farmers favor government ownership and operation of the American Merchant fleet, Benjamin C. Marsh representing the Farmers' National council, told the house merchant marine committee today.

"The farmers want the government to retain ownership," declared Marsh, "because they know that under private ownership and operation ocean freight rates have been enormously increased and that American shipping lines made as high as 42 per cent net profits on a very generous capitalization even before the war."

INJUNCTION GRANTED.

New York, Sept. 24.—Supreme Court Justice Wagner today granted an injunction restraining Ban Johnson, president of the American League from using any portion of the league's sinking fund to defend the suit brought against him by the New York American League club in connection with suspension by Johnson of Carl W. Mays, Yankee pitcher.

DISCUS PAN-AMERICANISM

New Orleans, La., Sept. 24.—Pan-Americanism occupied a prominent part at today's session of the Associated Advertising Clubs of the World in convention here. Final arrangements for the organization of a Pan-American division of the organization were adopted.

PRISONERS ESCAPE.

San Francisco, Calif., Sept. 24.—Seven prisoners escaped early tonight from the United States army disciplinary barracks on Alcatraz Island, in San Francisco Bay according to military authorities on the island.

THIRD DAY OF GREAT STEEL STRIKE PASSES QUIETLY

The third day of the great steel strike passed without either capital or labor having made any apparent material gains. Last night attention was being focused on Washington where the inquiry into the industrial struggle by the senate labor committee is to open today.

Conflicting statements issued. From their respective headquarters industrial leaders and directors of the strike issued their usual conflicting statements which left still in doubt the exact number of workers who have walked out.

William Z. Foster, secretary of the strikers' national committee claimed that in the various steel centers 15,000 more men had abandoned their posts bringing the total to 342,000 but in the crucial Pittsburgh district officers of the United States Steel corporation and several independents asserted that the stream of labor had turned and was flowing into the mills.

Make Further Plans for Conducting Strike.

According to reports from Pittsburgh where union labor leaders held a general parley to consider conduct of the strike, managers of the plant are seeking now to take the offense. Not content with merely holding what forces remain with them, they are said to be trying to induce wavering strikers to return. On the other hand, labor's recruiting forces are not inactive as shown by the fact that organizers from the mine workers' union have been called to reinforce agents of the steel workers' union in enrolling non-union workers.

Hope to Shut Down All Plants.

Despite the prediction of Mr. Foster, that thru the work of these organizers the strikers will be able gradually to shut down all the important works in the Pittsburgh district, employers claimed that yesterday they had been able to increase production in all important plants including those in Homestead, Clairton, Braddock, Duquesne and the Pittsburgh city mills of the Carnegie company.

As in Pittsburgh the situation in Chicago also was clouded by conflicting reports. The industry in that section the crippled by the closing of many plants was by no means tied up and company officials claimed additions had been made to the reduced forces with which they were continuing operation. In the Youngstown district where advances were claimed by the strikers the strike spread yesterday to fabricating plants, two of which were closed, as were the Youngstown Pressed Steel company. Paralysis of production in the Mahoning Valley, caused by idleness of 44,000 workers, continues, every plant being closed.

From Canton, Ohio, came the announcement by the general manager of the Canton Sheet Steel company that his men, numbering 1,200, had voted to return to work.

In the Colorado district plants of the Colorado Fuel and Iron company in Pueblo, which closed on Monday remain idle and according to officials will make no effort to operate with strikebreakers.

Yesterday was marked by a sharp decrease in violence. Altho rioting occurred in Cleveland, order reigned in Buffalo, New York and Pittsburgh, New Castle and Farrell, Pa., the storm centers on Tuesday.

On the heels of these riots came charges from strike headquarters that in Buffalo the trouble had been incited by "hired detectives" for the purpose of "bringing in the state constabulary and breaking the ranks of the strikers." Governor Smith would be asked to order an investigation it was announced.

Pennsylvania Governor Sproul of Pennsylvania concerning the action of the state police in dispersing crowds in steel towns brought from the governor a reply that he had been informed "dangerous and evil disposed persons at points in other cities" were preparing to "collect armed mobs to come across the state line to attack our citizens and destroy their property," and that such mobs would be treated "as armed invaders of Pennsylvania."

Gompers Attacks Steel Companies.

An attack on methods which he said had been employed heretofore by steel companies was made yesterday by Samuel Gompers, president of the American Federation of Labor, who, in addressing the senate interstate commerce commission on the Cummins' railroad bill, referred to the steel strike, charging murder, assault, arrest of men, prohibition of meetings on rented grounds and workers dispersed by thugs, gangsters and detective crooks, employed by the companies.

To the senate will be carried the fight of strikers in the Pittsburgh district for the right of free speech and free assembly. John Fitzpatrick, chairman of the national committee for organizing iron and steel workers, announced last night after the conference of labor leaders in that.

MEN RETURNING TO WORK FUME SITUATION GRAVE

No Violence Occurs in Chicago
District—Officials Con-
tinue Reticence.

Chicago, Sept. 24.—Signs of increased activities at some of the large plants of the United States Steel corporation today the third day of the strike, brought reports that some strikers had returned to work and denials from union leaders that there had been any break in the ranks of the strikers. The day passed without violence in this district.

Reports that between 1,400 and 3,000 strikers had returned to the steel corporation's huge plant at Gary, Ind., and that four blast furnaces and the slab mills at the subsidiary plant of the Illinois Steel company at South Chicago had resumed operations were denied by union chiefs.

Company officials continued their reticence, although C. A. Smith, operating manager of the American Bridge company, another subsidiary of the corporation said all but two of the four-ten plants of the bridge company were operating with normal forces at work.

John DeYoung, secretary of the Chicago district council of Iron Steel and Steel works declared no strikers had returned to work and that smoke and other evidences of activities at the Illinois Steel plant were camouflage work by foremen. The union leaders insisted the big steel plants were unable to operate.

At Indiana Harbor however, where officials of the Inland Steel company, a large independent plant declared the plant would be closed for six months until the strikers returned, spokesmen for a body of strikers, numbering between 400 and 500 men, declared they were ready to return tomorrow if sufficiently protected. The mayor and sheriff promised to increase their forces but some local business men said if those men returned to work tomorrow a violent clash was almost certain in their opinion.

Emden, Ill., Sept. 24.—Security carried away by robbers of the Farmers State bank amounted to \$100,000.

FRENCH FEAR U. S. WILL NOT RATIFY TREATY

Question Is Discussed at
Length in French Chamber.

LEAGUE COULD EXIST

Vote on Lodge Amendment Tues-
day Causes Great Sur-
prise Abroad.

PARIS, Sept. 25.—(By The Associated Press).—In an explanation to the chamber of deputies today Premier Clemenceau declaring that the league of nations could exist even though rejected by the United States senate, asserted that it was precisely because the French felt that the league of nations was an insufficient guarantee for some years to come that the protective treaties of alliance between France, Great Britain and the United States were drawn up.

The possibility of non-ratification of the peace treaty and the covenant of the league of nations by the United States senate; the consequences, in such event, to the guarantees for the future of France and the question whether the league of nations could exist without the United States as a member occupied the entire afternoon's debate.

Vote in U. S. Senate a Surprise.

The vote in the United States senate yesterday postponing consideration of one of the amendments, is regarded here as significant and caused surprise in the French chamber. Louis Barthou repeatedly asked the government for explanations.

Andre Tardieu and M. Pichon, the foreign minister, replied, but the chamber was not satisfied.

Premier Clemenceau then declared that even in the event of the United States senate not voting for the league of nations covenant, the league could exist. The alliance between France, Great Britain and the United States, he added, were not dependent upon the league. They would come into force and France would be protected. During the course of M. Tardieu's speech M. Barthou interrupted and demanded an immediate reply as to what situation France would be placed in should the United States not ratify. He added that it was thru delicacy he had refrained from asking this question before, as he wished and hoped that the senate would finally begin the discussion and reach its conclusions. But now this seemed hopeless and the question must be settled immediately as American ratification was distant "if it occurred at all."

M. Tardieu Confident.

M. Tardieu declared that he personally was satisfied that the United States senate would ratify the treaty.

M. Barthou said that he was far from satisfied, and cited the vote of 43 to 40 on Senator Lodge's motion for postponement as a "fair warning of the ultimate fate of the pact."

M. Pichon's reply that "legally speaking" the league could exist without America's participation brought the retort from M. Barthou that what France wanted was political guarantees, not legal guarantees. He asserted that the government must face the issue immediately.

Clemenceau's Opinion.

Premier Clemenceau said: "should the United States reject the league of nations, two treaties of alliance between France and Great Britain and France and the United States exist. Nevertheless, it was precisely because we felt that the league of nations was an insufficient guarantee for some years to come that these treaties were drawn up. The league of nations for the present has nothing to do with the Franco-British-American treaties which constitute sufficient guarantees for France."

M. Clemenceau added that the league of nations would not take up the responsibilities and guarantees entered into by the treaties unless it was decided to do so by a two thirds majority when the league was completely organized and operating.

"If you are seeking to adjourn the debate until America ratifies the treaty," he said, "you may do so but you shall do so without us." The debate was adjourned until tomorrow.

HUNDREDS DRAFTED TO FIGHT FOREST FIRES

Los Angeles, Sept. 24.—Several hundred men were drafted today to fight fires in the Los Angeles national forest. The fire has burned over 100,000 acres of timber and the front is thirty miles long. The principal fire is in the San Gabriel canyon region thirty miles from here. Ashes from it fell like snow today in all parts of Los Angeles.

ALARMING REPORTS.

Nevertheless alarming reports are reaching peace conference leaders of the possibility that Annunzio's action at Fiume may be duplicated by other Italian leaders at Spalato, Cattaro and Zara, all important eastern Adriatic seaports and that plans are on foot by the Italians to restore King Nicholas to the Montenegrin throne.

Such action it is said would inevitably result in a declaration of war against Italy by the Yugoslavians, who are said to be greatly irritated over the situation. The Italian delegation had many dispatches today which indicated that much of the army and navy was beyond government control because of Premier Nitti's opposition.

NAMES SUCCESSOR TO ADMIRAL BENSON

Washington, Sept. 24.—Secretary Daniels announced today the appointment of Rear-Admiral Robert E. Coontz to be chief of naval operations, the highest office in the navy. Rear-Admiral Coontz who will succeed Admiral Coad will be in command of the Pacific fleet.

WOULD MAKE ALL PRESENTS KNOWN

Washington, Sept. 24.—The state department was asked to furnish a list of all presents tendered Pres. Wilson through that department from kings, princes or foreign states, since December 1, 1918, under a resolution introduced today by Representative Ramsmeier, Republican of Iowa.

MILLINERY

Now at Its Best

Wa book the name of the secretary would see our mill strikers' organiza. M. J. S. O. R. Regard Reservation Rejection of Treaty.

TO MAKE DECISION NOW

Thousands Hear Speaker at Cheyenne, Wyo.—Shantung Question Defined

Cheyenne, Wyo., Sept. 24.—Reading the proposed senate reservation to Article Ten of the league covenant President Wilson declared in an address here today that should any such reservation be adopted he would be obliged as chief executive to regard it as a rejection of the treaty.

The provisions of the reservation the United States would assume no obligation to preserve the territorial integrity of other nations unless congress should so decide.

Declares Issue Final

"It is as though you said we will not join the league now," he said, "but may join it from time to time. We won't promise anything but from time to time we may cooperate. The thing is unworthy and ridiculous. It means the rejection of the treaty nothing less. The issue is final. We can't avoid it. We've got to make the decision now and once made there can be no turning back."

Unless the United States went into the league now, he added and assumed its full responsibility it would have come in later with Germany. The example to which the whole world turned, the president said was set by the United States in 1776. Some European statesmen, he declared had "affected to disregard" that example, but now they all had come under its influence. In the new world concord to rescue the world completely from autocracy Mr. Wilson said the United States must take the lead. The president's address, frequently interrupted by cheering, was delivered in a Cheyenne Theater which was filled. Previously he had been cheered during his ride from the railway station.

Discussing America's place and leadership Mr. Wilson said the nation must keep its face turned forward, just as the American soldiers always did in the great war. They not only never thought of turning back, he said, but they never put any reservations on their service.

Declares People For Treaty

Assuming that the overwhelming majority of the people were for the treaty the president added that the only organized elements opposing ratification were the pro-German element and others who showed "their hyphen during the war."

Opponents of the treaty, Mr. Wilson said made many insupportable objections but had debated seriously, only one of these objections, the Shantung settlement. He went into the history of the Shantung question at length pointing out that President McKinley did not protest when Germany acquired the Shantung rights now given to Japan. The settlement included in the Versailles treaty, he asserted was "unavoidable" while the league of nations offered the best hope for China's recovery of her lost province. The United States president asserted had no precedent in international law for even protesting against Japan's acquisition of the Shantung rights. But he added that under Article 11 of the league covenant it would be the friendly right of a nation to protest against any such situation which endangered peace. For the first time, he said, the United States could, under the league become the effective friend of China.

Recalls Japan's Promise

Recalling Japan's promise to return to China all sovereign rights in Shantung the president said the Shantung question was the Tokyo government would be economic rights, such as other nations hold. He said the United States had no right to doubt that promise.

He characterized as "empty noise" the professions of friendship for China made by those who want the treaty to fail.

Must "Showdown"

Turning to the league covenant the president said the question of whether the heart of the league covenant was to be cut out soon must come to a "showdown". It would mean the withdrawal of the whole plan, he asserted if the nation.

Tanks Over

—We have them in all sizes, best troughs, hog water pumps that money can buy, saving for which we remain on beds, scoop boards, cold winter, don't comfortable.

See the American nation at its best. In the good old days that might have been true, but not in recent years. Few men can afford to eat even as much as they desire of the costly stuff these days.

Efforts are being made to co-ordinate the activities of the Red Cross, the Illinois Tuberculosis association, child welfare agencies and other similar societies in Illinois so as to prevent overlapping of programs, according to Dr. George T. Palmer, assistant director of the Illinois department of health. The plan contemplates the creation of an advisory council which would work under the supervision of the state health department.

In a recent written address read to a convention of advertising business men of America at New Orleans President Gompers said that labor was equally responsible with capital for the conditions existing and that only increased individual productivity can remedy the situation permanently. How can increased productivity be brought about with shorter hours of labor?

Food prices reached their highest mark in August, but that is only a starter now that the government has taken the situation in hand.

A duty on an article not producible in this country may tend to raise the cost to the consumer but a duty on an article producible here will tend to lower prices.

Everybody is against the high cost of living but few are willing to try a comparison with the cost of high living for a while.

question has been asked: "What is the peace conference doing for the whole United States in treaty making? Were members of that conference, instead in international affairs, aware of the fact that treaty making, so far as the United States was concerned, is not a one man affair, but is a joint affair between the President and the Senate of the United States? Rather leading and important questions."

PRICES OF GRAIN

The recent decline in grain price is creating a vast amount of criticism among the farmers. Statistician and Crop Expert B. W. Snow, in a striking article in the Orange Judd Farmer, a farmers' paper, says in part:

"Prices for farm products during the last five weeks have dropped to a point where they are probably below the real cost of production. The course of prices during the last five weeks has not been governed by the law of supply and demand. It is the result of a carefully arranged government, state and municipal propaganda program. It has succeeded in reducing the price of everything the farmer has to sell, but it has not in any material way reduced the price at which these same foodstuffs are sold to the ultimate consumer."

"Farmers can control the situation and bring about a range of prices based upon the law of supply and demand if they keep cool, avoid panicky selling, and deliver their product as they are fully ready in the case of live stock and as they are needed for actual consumption in the case of standard storeable products."

CONSOLIDATING THE CONFERENCE

The combination of the Central Illinois and Illinois M. E. conferences, which has been contemplated for some years, now seems probable. Originally the Illinois conference included not only this state but Indiana and parts of Kentucky and Missouri. As the territory became settled it became necessary to reduce the territory, until now there are four conferences in Illinois alone. The Rock River conference includes Chicago and territory south to a line running across from Kankakee to Rock Island. Central Illinois conference includes Rock Island and Kankakee with the territory south to a line running east and west between Bloomington and Normal, the former being in Illinois conference while Normal is in Central Illinois conference. Illinois conference has the territory from this line south to a line running through Marshall and Hillsboro, while Southern Illinois conference includes the rest of Illinois south of that line.

The division of Illinois into conferences has never been altogether satisfactory. The work and problems of Illinois and Central Illinois conferences have been practically the same and for many reasons there has been a growing feeling that they should combine.

The Central Illinois conference sent a committee to the recent conference to present the matter and used a chart and map to show the desirability of the consolidation. The matter was fully considered and by a large majority the conference voted favorably on the proposition this year, provided the legal and other details can be arranged. The only valid objection to the combination of the two conferences was that it will make the conference of such size that it will be unwieldy in the transaction of business and difficult in the matter of entertainment. The latter can be handled by locating the conference at some of the larger towns which have adequate hotel accommodations, and going more on the self-entertainment basis than has been done before. This method of taking care of the delegates requires much less in the way of entertainment on the part of the local church.

A commission was appointed to confer with like commission from the Central Illinois conference to work out the details of the union. The conference voted that when this joint commission is ready to report a special session of the two joint conferences will be called to ratify the recommendations of the joint commission. The commission is composed of Rev. M. N. English of Decatur, Rev. J. C. Nairn of Chicago, Rev. A. S. Chapin of Paris, Rev. Thomas Tull of Jacksonville, Rev. E. N. Antrim of Springfield, Rev. H. W. McPherson of Danville, Rev. W. J. Davidson of Evanston, Rev. J. W. Van Cleave of Chicago and Rev. F. A. McCarty of Quincy.

When this union is effected this combined conference will be the largest conference in Methodism. It will include 500 pastors, charges, and including the retired preachers, will have at least 700 members. Though nothing has yet been considered about the name, it will probably be known as the Illinois conference.

THE OTHER SHORE

In that happy land we're near, there's no graft or profiteering, you might rake the country over and you'd find no sign of a woe; and it seems to me surprising, yet the fact there's no disguising, that it's hard to find a fellow who is in a rush to go. When we've crossed the silent river, where no sunbeams ever quiver, if we have a goodly record we shall never know a tear; yet our hearts are bowed and grieving when we find it's time for leaving this old punk abandoned planet. Here we've fought our little battles, here we have our goods and chattels, here we've planted vine and figtrees, and we hate to leave them all; here we have our daily labors, here we know our next door neighbors, and it's bitter hard to leave them, even though the angels call. I believe in all the stories of elysian joys and glories, and I hope such goods to sample when I cross the Jordan wave; my sad life is full of worry, but I'm really in no hurry to approach the gates of jasper by a short cut through the grave. This old world's a tinhorn fizzle and our tears forever drizzle, and our groans are ever rising as we toil along the road; but, although I loathe and hate it, with third class gold bricks rate it, I am in no shameful hurry to acquire a new abode.

TOWN TALK

A Fine Young Rowdy.

A type of youth of which we have several too many specimens in Jacksonville showed a bit of rowdiness on the south side of square late Tuesday night. A young lady of the city, an employee of Maplecrest Sanitarium, was coming along the street from a picture show on her way to catch a street car when the youth in question accosted her. When she, not knowing the lad, declined to allow him to see her home, he grabbed hold of her and when the scuffle ended, her clothes were a ruin and her hair was hanging down her back. The matter was reported to the police.

The Mystery of the Missing Lamp.

Theft of more than usual mystery, and one which has baffled all attempts of the Department of Public Safety to solve, occurred at a late hour Monday night or at an early hour Tuesday morning. Following their ignominious defeat on the ball field earlier in the day, several of the city team, police officers, made the assertion that it would be safer for all Journal employees driving cars to do so at night with the tail-lights burning. "Because we'll sure pick you, now, if you don't," Monday evening as usual Carl E. Newport, of the Journals composing room force drove his Ford car up in front of the office and left it there during the night while he was at work. Preparatory to starting home about three a. m. Tuesday he discovered that some vile miscreant had stolen his tail lamp. Of course the young man couldn't very well wait for day light just to avoid the violation of a traffic regulation, especially at that hour of the morning when he supposed all of the city's new traffic officers to be abed. So confident of his stand he drove home as any law-abiding citizen would have done. Tuesday about noon a telephone message apprised his wife that a report had been filed against the car and that this was "the first warning." Mrs. Newport, not in on the joke was considerably frightened believing that her husband, just lately returned home from overseas, might be taken from his home again by officers of the law. Suspensions of course may be misleading, but "Newt" has a pretty good idea of who has that lamp, but absolutely no proof. It may be that some visitor in the city having no lamp on his car and fearing the wrath of the law in such a case has taken the aforesaid lamp in an emergency to protect himself. It is said a large reward has been offered for the capture of the culprit dead or alive.

POLICE SCATTER COLLEGIANS.

A few nights ago the police received a hurry call from the west part of the city where it was alleged students of Illinois College were holding high carnival. Residents of the neighborhood made the complaint and reported the theft of several articles. To a school boy on the war path, it appears that, all is fair game, and these young gentlemen seemed to have hit the trail to replenish the diminished larders of the commissary. In other words they were hungry. It is reported that a cake was the first article secured and this led to the suggestion that ice cream was needed to make the cake most palatable. Accordingly steps were taken to secure this confection. Just as the second offensive was about to be launched, in fact just as the campus buddies went over the top, Chief of Police Kiloran, Alderman John Cain, head of the Public Safety committee, and Patrolman James Hurst appeared on the scene. The college boys immediately attempted to dig themselves in and every bush or tree that afforded protection was taken advantage of by the attacking party. Seeing the enemy taking to cover so hurriedly the officers held a consultation and discussed their plans in as loud a voice as possible. It was their plan to let none of the boys escape. If any of them attempted to run it was stated that the officers were to shoot. "And shoot to kill, if you do shoot," one of the officers is said to have ordered. At this statement, the very bushes in an adjacent spot appeared to tremble and shake. Walking toward this place the policemen picked up three of the collegians who were laying one almost upon the other. Cain took charge of these lads while the other officers attempted to round up some more boys. It is said that there were about eight of the men altogether. Well for awhile there were college boys running around there

like a bunch of scared rabbits. Almost every bush or tree would yield its quota of students. Patrolman Hurst and Chief Kiloran were hunting for more of the boys in the rear of a west end residence on State Street when the mistress of the house sicked the dogs on them. Just about this time a college man rushed past Hurst who took after him. The two had run almost over to the campus when the officer seeing himself outdistanced drew his revolver and fired in the air. It is said that the fugitive jumped about fifteen feet in the air and simply faded away he went so fast. This fellow's partner came running over to the campus, and taking Hurst for his comrade almost ran up onto the officer. When he recognized his mistake he turned to run away and the officer of the law let go with his "gat" again. Returning to the place where Cain and Kiloran were holding the three captives, Hurst was greeted with an interrogation regarding the shooting on the campus. It was implied for the benefit of the college men that both fugitives were pretty seriously hurt, one probably fatally. Taken to the police station the three men paid a fair price for the cake which they had assisted in taking and were released from custody. It is said that one of the boys will never be any whiter when he is dead. All of them received a well deserved scolding which should teach them a lesson to be heeded in the future.

MILLER FAMILY WILL RESIDE IN OREGON

Mr. and Mrs. William Miller and daughter to leave soon for Marshfield, Ore., to make their future home.

A few weeks hence Mr. and Mrs. William Miller and their daughter, Miss Jeanette Miller, will leave for Marshfield, Ore., where they are expecting to become residents. Their going will be a loss to Jacksonville and their friends will regret that their home is to be established on the coast.

At Marshfield they will be near Mrs. H. S. Burpee, who was Miss Nellie Miller before her marriage and removed to that city a few years ago. Mr. Miller has been in the grocery business in the Hayden building on the west side of the square for nearly forty years, having been in partnership with his brother, Matthew, there since 1890. Prior to that time he was associated with the firms of Alfred and George Hayden and with the surviving partner.

Blue Serge Suits

We have just received the lot of fine Blue Serges which we ordered last January, and in all probability these will be the last obtainable for fall and winter wear.

Blue Serge is the favorite suiting with hundreds of good dressers, and if you are contemplating a suit of such material we urge you to come in and leave your order now, as our supply will not last long.

This is the genuine all-wool, old time serge, and will prove satisfactory in all respects. Prices will be based on those paid by us last January. This will mean a great saving as the same material cannot be bought now except at several dollars per yard higher, and if it can be bought at all will be still higher next season.

CAFETERIA SUPPER HELD AT LITERBERRY

Community Event Drew Large Patronage—Proceeds for Benefit of Passavant Hospital Fund.

The people of Literberry joined in a community supper Wednesday night for the benefit of Passavant hospital fund. The supper, served in cafeteria style, was given in the Christian church, the people of several churches sharing in making the plans and in serving the numerous patrons. The bill of fare was excellent and all patrons were extended every possible courtesy. The proceeds were \$141.60 and thus a considerable sum was raised, to be added to the Passavant fund.

J. A. Liter was the general chairman and J. S. Hitchens secretary. These, with the following, constituted the general executive committee: Willard Young, Orville Crum, T. M. Crum, A. L. Ratliff, Charles T. Young. Other committees were as follows:

Social—Orville Peteish, Lola Maul, Floyd Martin, Emma Johnson, Mrs. Jane McFarland, William Crum, Thelma Liter.

In the serving of the supper Miss Lora Peteish was the general superintendent and other department chiefs were:

Hamburgers—W. W. Young, Orville Peteish, Warren Daniels, Weiners—Mrs. A. L. Ratliff, Mrs. G. A. Dunlap.

Salads—Mrs. J. A. Peteish, Ham and chicken—Mrs. J. C. McFillen.

Waitresses—Misses Georgia Chapman, Margaret Chapman, Mabel Johnson, Thelma Liter, Helen Young, Barbara Cooper, Lula Henderson, Emma Johnson.

Cashiers—Mrs. C. A. Beavers, Mrs. Durrell Crum, J. S. Hitchens.

There were of course a great many others who assisted with the committee work and the splendid success of the undertaking was thus shared by a large number representing all of the community of Literberry. The event did credit to the generous spirit and interest of them all.

LINCOLN RESIDENTS PROTEST CHANGE

Do Not Want Rev. Tull to Leave Church in That City—Conference Appointment Moves Him to Grace Church Here.

The following article from the Lincoln Star shows in what regard Rev. Thomas H. Tull is held by the members of the Lincoln congregation:

Unless a meeting of protest held by officials and others of the M. E. church in this city at 11 a. m. Monday brings results different from those now pending, the M. E. church will not be served by Rev. Thos. H. Tull, as pastor, who has served so well during the past few years.

The action of the Illinois conference at Charleston as recorded Monday morning, when appointments were announced, is that Rev. Tull goes to the Grace M. E. church at Jacksonville and his place here is to be taken by Rev. C. E. Baker, now of the First M. E. church at Danville. The appointment for the circuit to succeed Rev. Johnson was not known Monday morning.

While the appointments of the ministers are not announced until the closing session of the conference on Monday afternoon, local Methodists who desired the return of Rev. Tull were able to learn Monday morning that he was not slated for Lincoln.

The result of their knowledge was the calling of a meeting for 11 a. m. at which they voiced their protest and their desires for the return of the popular minister to local M. E. church. The protests were filed immediately with the conference and Bishop Nicholson and his cabinet were to decide the issues during the afternoon.

It was with more than an ordinary feeling of regret that the local church heard of the appointment of Rev. Tull to Jacksonville. They desired his return here and the minister likewise wished to return. Many felt that he would be returned but the action of the conference proved to be otherwise.

Rev. Tull has been deservedly popular in the community. He has been fearless in his utterance and fought a magnificent fight from his pulpit and from the platform during the war, for the cause of Americanism. His loss will be felt far outside the circles of his church in case the final decision is that he will take the Jacksonville church.

MISS MAYME HEGARTY IS SEPTEMBER BRIDE

Devlin Wednesday Morning—Will Take Trip to Chicago and Other Northern Points.

The marriage of Mr. Charles Devlin and Miss Mayme Hegarty was solemnized at the Church of Our Savior at 8 o'clock Wednesday morning. The Rev. Father Formaz officiating. They were attended by Miss Mary Sloan of Peoria, a cousin of the bride and John Blesse, a nephew of the groom. Miss Agnes Devlin, a sister of the groom sang preceding the service.

The bride was attired in a suit of blue serge with picture hat to match and wore a corsage bouquet of Ward roses. The bridesmaid wore a tailored dress of blue tulle with picture hat to match and a corsage bouquet of Ward roses.

Following the ceremony a five-course breakfast was served at the home of the bride, 235 Howe street. The cutting of the bride's cake furnished much amusement. Frank Kiloran received the ring, Elizabeth Sloan the dime, Myrtle Sargent the thimble, Agnes Devlin the darning needle. Miss Kathryn Hoban caught the bride's bouquet.

The newlyweds attempted to escape in an automobile but their friends discovered their intention and overtook them on the Chapin road and escorted them to Chapin and then boarded the train and accompanied them to Concord in order to give them a fitting farewell. They will visit in Chicago, Milwaukee and other northern points, and will be at home after October 15 at 714 1/2 East North street, which the groom has already furnished for his bride.

The bride is the daughter of Mrs. Anna Hegarty of 235 Howe street. She was born here and has spent her entire life in this city, being a young woman whose charm of manner has won for her many friends.

The groom is the son of John Devlin. He is a cigarmaker by occupation and is employed at the McCarthy-Gebert factory. Mr. Devlin is a young man of genial disposition and is highly regarded by both his employers and fellow workmen. They will have the best wishes of many friends for a happy and prosperous married life.

A clothing man's life is made up largely of fits. If he does not give them, he gets them. He has to make good.

Matrimonial

Pemberton-Tate.

The following from Friday, Sept. 12, Galtia, Ill., Gazette:

The marriage of Miss Clara Pemberton and Raymond Tate was solemnized Friday at noon at the M. E. parsonage. Rev. Ellie performed the ceremony which was witnessed by relatives and a few friends. The couple stood before an altar of ferns and pink and white flowers. The bride's gown was of white Georgette over light blue satin trimmed in seed pearls. She wore a full length tulle veil and carried bride's roses.

The groom was attired in blue serge. The bride has been a most accomplished nurse of Jacksonville State Hospital for the past three years. She is a young woman whose many womanly graces have won for her a large circle of friends. These will unite in wishing her many years of wedded happiness. The groom was in the army service during the war and his army record was of the best. He spent one year in France and was wounded in the battle of the Marne.

The young people will have the best wishes of many friends. They will be at home after Sept. 25th at their farm near Galtia.

Social Events

Entertained for Guests.

Mr. and Mrs. Leslie DeWitt of Greenwood avenue, entertained about thirty couples last night in honor of Mr. and Mrs. M. Brush of St. Louis who are visiting at their home. Games and dancing were the chief features of amusement, and refreshments were served.

Mr. and Mrs. Brush will return to their home Friday.

Mr. Zion Social.

A large crowd assembled Wednesday night at the pleasant country home of Mr. and Mrs. E. R. Carter to enjoy a social which was given for the members and friends of Mt. Zion M. E. church, by the Ladies Aid society. Games, music and light refreshments made the occasion a delightful one, and the people also had an opportunity to bid good-bye to the retiring pastor, Rev. F. C. Read. A spelling match, in which Mr. Read came out victor, was an enjoyable feature.

DEATHS

Todd.

Martin V. Todd, residing seven miles west of Jacksonville, died at the Norbury Sanatorium at 12:10 o'clock Wednesday afternoon.

Deceased was the son of Henry and Dicy Kennedy Todd and was born six miles east of Winchester August 2, 1840. He was united in marriage to Miss Mary Douglas.

His wife preceded him in death two years ago. He is survived by the following children: Mrs. W. T. Coultas, Jacksonville; Mrs. B. Ferguson and Wiley Todd, west of the city; A. H. Todd, Woodson, and Russell Todd, Jacksonville.

Mr. Todd had resided in this vicinity practically all his life. He was a member of Lynnville Christian church and of Lynnville Lodge I. O. O. F. He followed the occupation of farming for many years and was a man highly regarded in the community.

The remains were removed to the undertaking parlors of W. W. Gillham and prepared for burial. Funeral services will be held from Lynnville M. E. church at 10:30 o'clock Friday morning in charge of the Rev. L. R. Cronkite, with burial in Kincaid cemetery.

PRESIDENT WILSON DEFENDS ARTICLE TEN

(Continued from Page One.)

tion were to adopt reservations to article ten as proposed in the senate. One by one said he, the other objections to the covenant has been disposed of. To all "can did minds," he asserted, it now was apparent that the Monroe Doctrine was fully protected, that there was no super-government set up and that no danger was to be feared from the speaking parts given to the British dominions in the league assembly. The withdrawal objection, he added, was another bugaboo that had been dispelled. Thus, Mr. Wilson continued the whole discussion had settled down upon Article Ten, under which the members agreed to preserve one another's territorial integrity against external aggression. He declared this cure at the tap root of war because nearly all wars started from aggression against those unable to defend themselves.

Following his address President and Mrs. Wilson and the members of their party visited Fort D. A. Russell, three miles out. On their return their special train left for Denver.

It has been impossible for ascertain whether a reply from President Wilson to the proposed formula for settling the Fiume question has been received. The American peace delegation is non-committal on the subject but unofficial Italians intimate that it has arrived.

PACKERS' PROFITS LARGER THAN PRE-WAR YEARS

Despite Licensing and Other Restrictions Imposed.

Washington, Sept. 24.—Despite licensing and other restrictions imposed on the "big five" packers during the war, the firms' profits were from two and a quarter to three times as great as during the pre-war years, the federal trade commission found during its investigation of the packing industry as set forth in a report to President Wilson under date of June 28, 1918.

The report, which was not made public when submitted Food Administrator Hoover having requested it be withheld, reached the senate today in reply to a request under a senate resolution introduced by Senator Norris, Republican of Nebraska. Accompanying it were copies of letters sent by Mr. Hoover to the president objecting to the commission's conclusions and asserting that no "useful purpose is being served by public ventilation of interdepartmental disagreements as to governmental policy."

At senator Norris' request all the documents were referred to the agricultural committee which is now considering legislation providing for federal regulation of the meat packing industry.

The commission in its report characterized the packers' maximum profits as being "unreasonably high" and asserted that the food administration's plan of regulation makes impossible safeguards to the interest of the public.

KING ALBERT TALKS WITH CORRESPONDENTS

Object of Visit to U. S. and Results Expected Given.

On Board the U. S. S. George Washington, Sept. 24.—(By Wire—The Associated Press.)—King Albert talked today with the correspondents on the object of his visit to the United States and he results he hoped to achieve. He pointed out that it was business as well as pleasure which impelled him to leave the country in these days of reconstruction.

"The situation in Belgium is improving," he said. "Our people have done work in greater proportion than the people of any country seriously affected by the war, and reconstruction is going forward in a most gratifying manner. But there must be further improvement. Our greatest need is credit. We do not seek gifts of money but want American business men to understand our needs and extend us the credits we must have if we go forward."

"America is the country best fitted to advance us these credits and we want Americans to know that all we desire is an opportunity to borrow the money necessary for our immediate development. As to the actual result the industry and thrift of the Belgian people will accomplish that, I feel sure."

"We have a great asset in the Congo that is a great country capable of wonderful advancement and I hope that the young men who absorbed new ideas during the war by contact with other peoples will take up this question and profit by the enormous prices now latent in the Congo which in turn will mean profit for Belgium and Belgian credit."

A loan to Belgium of \$50,000,000 or more probably will be announced by American bankers during the visit of King Albert, according to reports in Wall street banking quarters on Wednesday. A loan of \$100,000,000 was recently discussed in financial circles, but so far as is known the amount has not been definitely fixed.

LINCOLN'S FRIEND IS BURIED AT WHITE HALL

Josiah Lamborn's History Recalled by Henry Polk Lowenstein, Kansas City Attorney, Native of White Hall, Who Gathered Data on His Recent Visit.

By HENRY POLK LOWENSTEIN

Josiah Lamborn was Abe Lincoln's friend; In legal combat oft they strove, But when the heated strife was at an end,

Each pledged his friendship and his love.

Here lie the bones in this neglected spot, Beneath the bramble and the briar, His friendships gone, his virtues all forgot, E'en tho his soul a flame of ire.

Great Lincoln sweetly sleeps in marble hall, 'Neath shaft of granite pointing high, Who knows but in that Highest Court of All Poor Lamborn's spirit's hovering high.

The shapeless tomb with neither mold or graft, Wherein his formless body lies, Is more enduring than the granite shaft, Majestic, towering to the skies.

Josiah Lamborn was one of a coterie of young lawyers who used to meet in the evenings with Mr. Lincoln at Speed's store in Springfield, Illinois, and discuss political and other subjects of general interest. He died at White Hall, Illinois, in the year 1847, at the age of thirty-eight years, and was buried in a small grave yard at that place, which was abandoned for burial purposes about the time of the breaking out of the Civil War and many of the bodies removed to the new cemetery south of town. His grave still remains with a marble slab at the head on which is the following inscription:

Joseph Lamborn, Esq., Attorney and Counselor at Law, Died at White Hall, Illinois, March 31, 1847. Age 38 years, 2 months.

Until a few years ago this grave yard was much neglected, and was covered with undergrowth and brush. The late John B. Hamilton of Chicago, founder of the United States Marine Hospital Service at Washington who grew up in White Hall, while on a

visit there to his parents, visited the old grave yard and wrote an article to the local press, upbraiding the people of White Hall for their neglect of the cemetery, since which time it has been reasonably well cared for, the undergrowth having been cleared away, and is now the summer home of a lonely cow belonging to the caretaker.

White Hall is a beautiful city of 3,000 inhabitants, sixty-six miles north of St. Louis, at the intersection of the C. & A. and C. & Q. railroads and is principally noted for its manufacture of sewer pipe, drain tile and pottery ware.

It has been said that Lamborn was Lincoln's equal in every respect, but death overtook him and cut short his career, and he is now almost forgotten.

In "The Every Day Life of Lincoln" by Frances Fisher Browne, page 186, appears the following: "He (Lincoln) had successfully met year after year, at the bar and on the stump, the ablest men of Illinois and the Northwest, including Lamborn, Stephen T. Logan, John Calhoun and many others."

In Vol. 1, page 213, of "Negley & Hay's 'Abraham Lincoln,'" in speaking of Mr. Lincoln entering into partnership with Mr. Logan, Lamborn's name is included in a footnote among many other eminent practitioners of that circuit. (Springfield). He is also mentioned on pages 184 and 186 of Herndon's Lincoln. Mr. Herndon refers to the debate at the (2nd) Presbyterian church in Springfield brought about by a challenge from Douglas at Speed's store, there being four speakers on a side, and each speaker occupying an entire evening. The speakers on the Democratic side were Stephen A. Douglas, John Calhoun, Josiah Lamborn and Jesse B. Thomas, and on the Whig side Stephen T. Logan, Edward D. Baker, Orville H. Browning and Abraham Lincoln, in the order named. Mr. Lincoln closing the debate. This debate is historic, and is referred to in Isaac N. Arnold's "History of the Life of Lincoln," on page 65, wherein he refers to Lamborn having taunted the opponents of Van Buren with the hopelessness of their struggle, and was sharply replied to by Lincoln. It is said, however, that they remained steadfast friends to the end.

Mr. Lincoln's reply to Mr. Lamborn's remarks was as follows: "Address that argument to cowards and knaves. With the free and the brave it will affect nothing. It may be true; if it must, let it. Many free countries have lost their liberties, and ours may lose hers, but if she shall, let me my proudest plume, not that I was the last to desert, but that I never deserted her."

Wm. R. Buford of Chattanooga, Tenn., is a guest of Mrs. John B. Dobyns on West State street. Mr. Buford came to Jacksonville in 1864 and was a member of the firm of Buford & Pavner. He was married to Miss Sallie Dobyns in 1871 moved to Kentucky, later removing to Chattanooga. Some of the old settlers will remember Mr. Buford and he would be glad to renew his acquaintance with them and talk of old times.

OLD JACKSONVILLE

A MOVING PICTURE

By Ensley Moore
(Member Illinois State Historical Society)

For many years Cincinnati, Ohio, was the "Queen City of the West," altho it was not founded until about the year 1800. This name till about 1850 or 1855.

St. Louis, altho founded by La-Clede, a Frenchman, about the middle of the eighteenth century, did not outstrip Cincinnati before the War (Civil) in population, but it had become the metropolis of the immediate Mississippi Valley, from St. Paul to New Orleans, before 1850.

Chicago has had the greatest growth for its age of any American city, but the Civil War brought retardment to St. Louis, and immense growth rapidly to Chicago.

Because Cincinnati was on the eastern route by the Ohio and the Mississippi river, to the West and South it had its great and rapid growth early in western history. But the more rapid growth of Ohio, Indiana, Illinois, Missouri and Iowa, gave St. Louis great development, as opposed to the slow growth of the western southern states. Cincinnati had comparatively only the Ohio river as its commercial asset, while St. Louis had the Mississippi and Missouri rivers—making one the longest in the world—and a region of most wonderful fertility to enrich it, and hasten its growth.

St. Louis. So it came about that, until 1830, and even later, St. Louis had the great advantage of Cincinnati and Chicago, and was the largest great city convenient to the settled part of Illinois, and to Jacksonville, and its name was continually in the thought of our citizens.

Our Metropolis. By reason of its nearness to us, and of the comparative ease of getting there by land, via White Hall, Carrollton, Jerseyville and Alton, and the greater ease of doing so by water, by the Illinois river, via Beardstown, Meredosia and Naples, original Morgan county, which included Cass and Scott counties as well, found St. Louis its place to sell and to buy, its nearest place to send produce and to get goods.

The Mound City. As it was called, by reason of its French and Spanish early settlement and development, together with its being in "a slave state," had a remarkable interest and attractiveness to our people.

The Steamboats. One of its chief peculiarities was the immense number of steamboats which put out from

the old and yet young city, to find their way up the Mississippi to St. Paul, and down to New Orleans; up the Missouri to Council Bluffs and "St. Joe," down the Mississippi and up the Ohio, and Wabash and Kentucky and Tennessee, down the Mississippi and up the Black, the Arkansas and the Red, and other lesser rivers of the South, and up the Illinois to LaSalle, up the Des Moines and the Iowa, and the Wisconsin. Down the river went farm crops, pork, and other produce, and back came dry goods, groceries, furniture, and the other necessities of civilized life and development. Best of all, came citizens from the South, the East and from beyond the seas.

A Place of Charm. The Missouri City had a wonderful interest to our people in those olden days, hardly past its height as headquarters of the American Fur Company. Its houses of foreign style in architecture, its stores still run by some of the French, its flowers and fruits beautiful and fragrant, and its dusky faces of the colonial people—occasionally mingled with those of Red men, and its levee strung with scores or hundreds of beautiful steamboats.

The Middle West has not its equal today. Takes Our People. Some of our brightest and most capable people, as the Jannarys and others went early to St. Louis to go into business success and others have since gone to Chicago, New York, Denver, Los Angeles or Seattle.

The Cattle Trade. Early St. Louis was the nearest big market for our hogs and cattle, which were driven there, and the packed products went by boat.

An Incident. The name of Jacob Strawn was something to conjure with, down there, in the livestock market. A cattle man was taking a lot of animals there one season when the ground was heavy with snow; he on horseback, his drivers on foot. So it happened that one of the men was overcome by the cold, so that he lay down in the snow to take what would have been his last sleep.

His employer came to him, cattle whip in hand, threatening to beat the man with it, unless he got up and moved along. This so enraged the man that he got up to his work, and saved his life. His employer afterwards told him he had only threatened him as he did to accomplish that result.

held a sale of livestock and farm implements on their farm north-west of this city. All of the offerings sold well. Cows sold up to \$130. Horses sold from \$25 to \$130. The sale was attended by a large crowd.

News Notes. Mrs. J. W. Eckman returned Wednesday from Decatur, accompanied by her brother-in-law, W. R. Eckman of that city, who will visit at the home of Dr. Eckman for some time. W. R. Eckman is convalescing from an attack of typhoid fever and is still very weak, tho improving.

Mrs. Gertrude Demereth and son Nicholas have returned home from a delightful trip to Colorado Springs, Yellowstone Park and other western points.

Mr. and Mrs. Ormsby Dawson and daughter, Mrs. Ollie Woodall, left Wednesday for St. Louis.

Mrs. Ollie Neat, Mrs. Elias Taylor, and Mrs. Verlin Summers have returned from several weeks visit in California.

Mrs. E. F. Wooster has returned to her home in Roodhouse after a visit with relatives here.

Mrs. William Wainwright and little son Alton arrived here Tuesday to visit at the home of Mr. and Mrs. William Wainwright, Sr. They returned to their home in Alton Wednesday.

Mr. and Mrs. Arthur Mirus of Beardstown motored to Winchester Wednesday and were guests at the home of Mr. and Mrs. Earl Nelson.

Wilson Coultas and sister Frances are visitors in St. Louis this week.

A. W. Clevenger, of the state university, state inspector of high schools, was a visitor at Winchester high school Wednesday.

The Ladies' Aid society of Centenary church will give a chicken supper Thursday evening at 6 o'clock.

Mrs. Margaret Toomey who has been away from the institution on account of the illness of her mother, has returned. She reports her mother improved.
Samuel Riggs, Mrs. Amanda Wheeler and Mrs. Florence Connor are on vacations.

MISS CATLIN TELLS OF SOCIAL SERVICE WORK

Interesting Address by Miss Lucy Catlin at the Congregational Church.

Last evening Miss Lucy Catlin spoke in a very pleasing manner regarding the work of the Social Service organization, telling of its great accomplishments in behalf of suffering humanity.

The main object of the society is to make sick people well and to help the needy when they recover. It is now 13 years since Dr. Richard Cabot found great difficulty in managing the treatment of his patients and he felt dissatisfied with results. He treated them properly, yet they failed, so often, to improve and he discovered that was due to home conditions.

He prescribed rest to those compelled to work; change to those unable to travel; special treatment to those who couldn't get it; nourishing food to those unable to procure it and he began to cast about for something to remedy the situation and this was the beginning of social service work.

The young lady mentioned a number of instances in which the good offices of the organization had accomplished much good. A boy was found who had tuberculosis. A church took up the case at the request of the league; he was sent to a sanatorium and cured. A foreigner named Alece was found suffering with the white plague and was treated 15 months and cured.

Sometimes there is trouble with parents who are not willing to cooperate with the society. A boy with bad hips and spine was taken up and saved from chronic invalidism.

Many cases were treated in the city of Youngstown in which Miss Catlin has worked for some years and the cases which have been aided are numerous and the good work done by the league is great. Work is sought for convalescents and in general the down and out are aided to an independent and useful life.

KNIGHTS OF PYTHIAS MEETING POSTPONED

Big Booster Meeting at Roodhouse Postponed for a Time Because of an Epidemic of Small Pox.

George Wiseman, general chairman of the committee on arrangements for the visit of local Knights of Pythias to Roodhouse this evening, received a message last night from General Chairman Sawyer of Roodhouse announcing that the affair had been called off. Some days ago small pox became prevalent in Roodhouse and has developed into an epidemic. For this reason it was deemed best to call off the meeting until some future time. It is the purpose to have the meeting and the time will be announced later.

NARROWS SCHOOL STARTS YEAR'S WORK

Has Bright Pupils and is Well Managed—Miss Ethel Meyer is Teacher.

It is with pleasure that the writer begins his visits with the schools of the county for it is always pleasant to greet the capable teachers and bright young pupils whom he meets on these calls. Then too the talks on foreign lands are somewhat different from the regular routine and afford a change.

The visits this year were begun yesterday with the Narrows school near the Asbury neighborhood and, as usual, the experience was very pleasant. There are very few schools in the county containing brighter or more interesting pupils. One thing is always pleasant to the visitor at this school and that is the questions they ask. This shows they have been interested in what they have heard and are able to voice their interest in asking for more.

The school building is very pleasantly situated and has a good playground though a few more trees on it would be a desirable addition. The building is in good repair, legally lighted and heated and well furnished. They have a good set of maps and some pictures adorn the walls. Some of the older pupils have not started yet as fall work is on and must have attention but in due season the school will be well filled.

The teacher is Miss Ethel Meyer and it is her second year with the school. Last year the school was interrupted as were so many others, by the scourge of the flu but this year they hope to go ahead without interruption.

The directors are Messrs R. Y. Gibson, E. R. Hembrough and Lester A. Reed.

The pupils are: Margaret Fairfield, Virginia Gibson, Margaret Johnson, Lula Johnson, Mildred Reynolds, Anns Stillwell, Elvira Towne, Emma Coe, Mary Elizabeth Pitts, Meta Tomlinson, Howard Fairfield, Alan Fairfield, Rea Gibson, Clyde Hudson, Harold Hembrough, Laurence Hembrough, Kenneth Johnson, Russell Johnson, Raymond Reynolds, Wilbur Reed, Robert Reed, Darwin Ronat, Alfred Coe, William Coe, Oliver Pitts, Thomas Tomlinson.

SCOTT BLOCK NOW IN NEW OWNERSHIP

Purchased for Home of the D. N. James Automobile Company.

A deed went on record Wednesday showing that D. N. James has become the owner of the Scott Block on West State street, the purchase being made from Mrs. Louise M. Gilbert. This substantial office building, located just west of the court house, is to become the home of the D. N. James Automobile Co. The company will immediately have an office in the building and a little later on one of the store rooms will be used for display purposes, and still later on the other two rooms will be made available. These changes will of course, be made only in accordance with the rights of tenants in the building. It is not the intention to disturb the tenants on the second floor.

Big Display Rooms.
Mr. James said last night, as indicated above, that the firm will as soon as available use all three of the ground floor rooms for display purposes, the arrangements also contemplating a service station. It is possible that later on the excellent basement may be remodeled somewhat to permit its use. If desired an addition can be built to the north, as the property extends clear from State to Court street.

The Scott Block was erected by the late Judge Edward M. Scott after the Baptist church building had been torn down. After Judge Scott's death the building was purchased by the late W. J. Moore and subsequently became the property of his daughter, Mrs. Gilbert. The building is well constructed and in an excellent state of repair. Its location makes it admirable for the business of the James Automobile Co., and Mr. James naturally feels fortunate in having secured quarters in such a favorable location, on one of the main thoroughfares of Jacksonville.

While the building already affords admirable facilities, any needed changes will be made which seem advantageous. The James Automobile Co. distributes the Auburn Beauty Six pleasure cars and Oneida trucks, and during the few months' location in Jacksonville has been doing an excellent business. It was the demand for the cars the firm is handling which made display facilities and a service station necessary, and this building was chosen after carefully looking over all available properties.

Missionary Pastor of Congregational Church Tells of Condition in China—Cholera Ravages Great Japanese Goods Boycotted.

July 13, 1919.
Dear Jacksonville Friends:
A quiet Sabbath Day is drawing to its close, and the hour of sunset is near. Soon the distant mountain peaks, which I see as I look across the city, with its roofs and temples, will be bathed in gold. A purple haze will settle over those eternal hills, to be followed by night—night that will be made hideous with the din of idol processions, and the wailing in stricken homes. This great city, with its seven hundred thousand souls is held in the grip of one of the worst cholera epidemics it has witnessed in years; and in their ignorance, the people are turning to the idols, and are spending thousands of dollars in an attempt to appease their wrath. Incense is offered for sale on every street and every god that is thought to have any influence in checking the disease is worshipped. Numbers of the idols

INDIGESTION Caused by Acid-Stomach

Millions of people—in fact about 9 out of 10—suffer more or less from indigestion, acute or chronic. Nearly every case is caused by Acid-Stomach.
There are other stomach disorders which also are sure signs of Acid-Stomach—belching, heartburn, bloating after eating, food repeating, sour, gassy stomach. There are many ailments which, while they do not cause much distress in the stomach itself, are, nevertheless, traceable to an acid stomach. Among these are nervousness, biliousness, cirrhosis of the liver, rheumatism, impoverished blood, weakness, insomnia, melancholia and a long train of physical and mental miseries that keep the victims in miserable health year after year.
The right thing to do is to attack these ailments at their source—get rid of the acid-stomach. A wonderful modern remedy called EATONIC now makes it easy to do this.
One of hundreds of thousands of grateful users of EATONIC writes: "I have been troubled with intestinal indigestion for about nine years and have spent quite a sum for medicine, but without relief. After using EATONIC for a few days the gas and pain in my bowels disappeared. EATONIC is just the remedy I needed."
We have thousands of letters telling of these marvelous benefits. Try EATONIC and you, too, will be just as enthusiastic in its praise. Your druggist has EATONIC. Get a big 50c box from him today. He will refund your money if you are not satisfied.

have been taken from their shrines, paraded thru the streets, and then flogged. Works of merit of every description are being done to try and save some loved one from the wrath of the spirits; but those spirits seem to be insatiable, for every day no less than three hundred are taken away.

Yesterday I was on the street, and saw a young man, evidently of the student class from his dress, pacing the length of the city and after every few steps he would place in the middle of the road a small stool he was carrying, kneel upon it, and bow in the direction of the temple. To which he was making a pilgrimage. Following him was a brother or friend, carrying lighted incense in one hand, and in the other a fan with which he fanned the worshipper. This I understand is a very common sight thru the city. On the main street which runs parallel to the one on which I saw the young man, I met an idol procession. It was an unusual procession, and like the other performance, was a work of merit. In the line that moved along was a collection of old animals, buffaloes, cows and pigs, preceded by ten tubs containing incense turtles. These were followed by thirty or more baskets full of broken crockery, and a band of gentry carrying lighted incense. The procession was making its way through the city to Kushan (rum Mountain) where the Buddhists have one of the largest monasteries in this part of China. Here these animals will be allowed to die a natural death. The turtles will be turned loose to swim in artificial lakes, and will be fed by novices for the rest of their lives. Such works as these are believed to appease the offended deities. I asked what special joy would be felt by the gods over an offering of broken rice bowls and dinner plates; and was told that there was merit in picking up these broken bits of crockery and preventing coolies from cutting their feet. Children are they, reaching for the light—seeking for some power outside of themselves to help in their hour of need. It reminds one of Job's cry in his distress—"Oh that I knew where I might find Him." We are thankful that some know and have found Him, and to them he is a constant source of strength.

Very few of our Christians are dying from cholera, because with the Light has come the knowledge of how to prevent taking the disease, and if taken what to do. I do not know how many have come to Doctor Kinnear for treatment, but so far those who have come have been saved.

Just previous to the outbreak of the cholera epidemic, the movement that started in Peking among the students, to drive out of office the officials connected with the loans secretly made from Japan, reached Foochow, and created quite an upheaval throughout the city. In the Peking movement several of the leaders who put through the Japanese loans were attacked, and after this attack, the students organized themselves and started a boycott against Japanese goods, which is still in effect. Had the members of the Big Four in Paris granted China's request that Shantung be returned to her, the present condition of unrest would have been averted. But Shantung, on top of all that Japan has squeezed out of China, was too much for the thinking class, and the revolt that followed was a natural result.

A boycott in the hands of the Chinese is a pretty effective weapon, and it was not long before the Japanese began to feel it. Shanghai followed Peking, and the cities of the Yangtze valley followed Shanghai; and in less than three weeks the students of every large center throughout the length and breadth of this great republic were at work preaching "boycott." The same method was followed by all student bodies—each school was divided into groups of tens, and these groups under leaders went on the streets and advised people to buy goods "made in China." Japanese articles, such as books, notebooks, pencils, athletic goods, balls, drill suits, etc., were either put away or destroyed. In some of the government schools thousands of dollars worth of goods were burned. Where drill suits had been worn for some time, a stamp mark noted this fact, and the students wearing such suits were allowed to go unbothered. If the stamp mark was sprayed over it, thus ruining the goods. The students were working harder over the propaganda than they were over their books, so the heads of the schools decided to close two weeks early. Another reason for this action and the more important of the two was to prevent accusation being brought against Mission schools that they were used as centers for propaganda against a nation friendly to the United States and England. It took over a week to persuade the students to leave some of the schools.

In Foochow the students demanded the resignation or dismissal of Mr. Wang, president of the Foochow Chamber of Commerce, who they claim had contrary to the boycott bought more than one hundred thousand dollars worth of Japanese goods, and paid for it with rice. He sent out of the country enough rice to raise the price here in Foochow. This enraged the students, so on June 16th they went to President Wang in the Chamber of Commerce Building, and asked to be allowed to see the goods he had in his bazaar. He told them they might go to the bazaar, enter and search his place, and that he would follow them. After the student committee left, Wang went to the phone, and told his clerks to be ready for the students when they came—he himself did not follow. While the students were inside, looking over the goods, the doors were shut and a band of ruffians set upon the students. Just how many were killed has not been known. Some say three, others more. Mr. Wang had to flee for his life. General Li, the governor of the Pro-

vince felt it was time to take a hand, and so he sent soldiers out to round up the students. It was no gentle treatment the students received. Some were badly beaten up before being taken in and locked up. By June 16th, over one thousand were guarded by soldiers. The merchants and shop-keepers out of sympathy for the students refused to open their shops. The military were again called out, and the shop-keepers were forced to open their doors. At the point of the bayonet or butt of the gun, they would open up, until the soldiers had passed by, and then up would go the front boards, and the shops would be closed. This lasted for several days, when the governor general agreed to bring Mr. Wang to trial. The students had meanwhile all been released, and the streets took on a normal appearance. The trial of Mr. Wang has not come off as yet, but the boycott continues. Japanese ships are carrying little or no freight from Chinese ports. What the real result of the boycott will be remains still to be seen. One result is very evident.—the movement has united the students, in thinking class, as they have never been united before. They have begun to clean house where they should have begun long ago—namely among their own officials. The Revolution of 1911 relieved the Chinese of the Manchu yoke, which had grown burdensome, but the Shantung question has created a national consciousness such as the Revolution was unable to produce.

In my talks with the students I try to help them see that what Jesus laid emphasis on is just the things they are seeking in their officials. He taught men honesty, and preached the doctrine of the square deal,—and that as they go about during the summer they will have many opportunities to teach the people these same doctrines, and so help usher in the Kingdom.

We want to acknowledge the receipt of a number of letters from our Jacksonville friends, and thank you all for the words of greeting, and the assurances that we have a place in your prayers. As I have often said to you in my letters, I believe the prayers of you good Christian workers are having a large share in the progress that the Gospel is making here in China. We in turn remember you in our prayers, and from what we read in the Jacksonville Congregationalist, and hear from our friends, we can see that God is pouring out His blessing on your efforts.

The kindest regards and best wishes go out to you all from both of us.

Your fellow-workers,

Asserts New Discovery Brings Blessed Relief to Rose and Hay Fever Sufferers

Can Make It Yourself At Home At Trifling Expense

In spite of all the doubters and scoffers, a man in Kentucky, who changed his annoying and distressing hay fever into less than a mild cold, claims most emphatically that if taken in time hay fever can be conquered or at least made so harmless that it is not even bothersome.

He gave his discovery to scores of other sufferers with the most remarkable results and has recently been prevailed upon to dispense it through pharmacists to all hay fever sufferers who still have faith that nature has provided an effective remedy for this welcome yet miserable disease. And best of all this remedy costs

almost nothing. Get a one ounce bottle of Mentholized Archie at any drug store, pour the contents into a pint bottle and fill the pint bottle with water that has been boiled.

Then gargle as directed and twice daily sniff or spray each nostril thoroughly.

That's all there is to it; so simple that a lot of people will say that it can't do the work but of times simple natural remedies are the best as you will find after using.

If you will make up a pint and use it for a week or ten days you need not be surprised if your uncommon yet miserable disease

HALVE HOLE IN ONE
New York, Sept. 25.—A golfing miracle was accomplished yesterday at the Forest Hills field club in New Jersey when George Stewart and Fred Slepmyer halved the eighteenth hole in one. Stewart teed off first, hitting an iron shot for the hole 145 yards away and watched his ball rickie into the hole. Then Slepmyer drove off. His ball dropped upon the green and after a short run clicked against the back of the cup and fell into the hole for an "eagle" one.

Successful Students Must Have Good Vision

The young men and women of today, who have successfully passed thru various stages of school life, have either had good eyesight or have worn glasses that gave them normal vision.

Without good vision good work is impossible. We overcome the prejudice against wearing glasses by making them pleasing to the eye and efficient in vision.

THE OBSERVATORY

Another of the dietetic errors in which this country persists is that of regarding canned salmon as food.

Peaches are said to have a kick. The summer of them at \$4 a bushel certainly has.

The president, who was going to set the West afire for the league of nations, apparently went equipped with wartime safety matches.

Mr. Gompers says it would be futile to enact a law prohibiting railroad employes from striking. They would strike anyway if they felt their grievances sufficient.

Would Mr. Gompers mind explaining this to the president and pointing out that in similar fashion a mere treaty wouldn't restrain nations from making war if they were determined to do so?

In other words, would he mind indicating to Mr. Wilson that his own experience with the way human nature works is pretty fair evidence that the law of the covenant of the league of nations wouldn't prevent war?

A very young Jacksonville girl was starting back to her boarding school a few days ago after a short vacation at home, and asked her mother to give her a little information.

"All the other girls are going to take back the very latest thing in some line," she explained. "One will take back the latest music, another the latest book, and so on, and I'm to take back the latest slang."

"Slang?" exclaimed her mother in a horrified tone. "Slang? Good-NIGHT!"

"Oh, no, mother," protested the girl scornfully. "That's old stuff. They've been saying that for five years."

Perhaps there are moments when the president wishes he had not urged the senators to look into the future. It seems they took his advice.

What does the war department mean, "no more" army food by mail? Has some of it been delivered somewhere?

American marines having been landed in the vicinity of Fiume, the situation may be expected to take a turn for the better, as inevitably happens when the marines take a hand in affairs.

It is said some of the Illinois college boys haven't got their breath yet after their scare of Monday evening. It's probable that they'll think twice before trying to pull any more "rough stuff" on the village cops.

Adjusting the Pace.

Kansas City Star: After repeatedly urging Rumania to get out of Hungary, the peace conference now is appealing to Rumania not to get out too fast, as the Hungarian government hasn't any military force of its own to maintain order. Perhaps if Rumania would move about as fast as the peace conference the pace would suit.

Real Thing in Thrills.

St. Paul Pioneer Press: The ovations to Pershing in New York and Washington must have delighted him, but his visit to his boyhood home in Missouri will be nothing less than "the thrill that comes once in a lifetime."

Using a Parachute.

Buffalo Commercial: Some optimistic persons say we have passed the peak of the high cost of living. If they are correct, then all we can say is that the descent is not exactly dizzy.

Contradictory.

B. L. T. in the Chicago Tribune: Just what does the trade jargon mean, "Experience essential, but not necessary?" We see it frequently in the advertising columns.

The Housewife's Suspicion. Chicago Daily News: There is mystery about the present sugar shortage, but the average housewife is convinced there is a profiteer in the sugar barrel.

Delayed Start.

Lincoln Journal: With the price of live hogs slowly drifting toward the normal isn't it time for bacon to make a start in the same direction?

Hates to Do It.

B. L. T. in the Chicago Tribune: Rather than desert his country Senator Sherman would desert the president. And gosh how he dreads it!

An Important Detail.

Washington Post: George Perkins insists that profit sharing will settle labor troubles, but he does not tell how to make the profits.

Limitations of the Automobile. Minneapolis Journal: Gen. Pershing leads parades from the upper deck of a horse. The automobile cannot prance.

About Right.

Omaha World-Herald: The old Greeks who made the profiteers drink hemlock had about the right idea.

Get in Line.

Houston Chronicle: Don't all strike at once. Wait your turn.

URGENT SENATOR JOHNSON TO CHANGE STAND

San Francisco Men Protest Against Attitude on Treaty.

SAN FRANCISCO, CAL., Sept. 24.—Thirty-eight prominent men of San Francisco and vicinity today sent a joint telegram to United States Senator Hiram W. Johnson protesting against his attitude on the peace treaty.

"We appeal to you to withdraw your opposition," the telegram said.

"We are confident that in this we speak for the overwhelming majority of the people of Cal-

ifornia and that your present position does not represent them truly."

The telegram was signed by Charles C. Moore, former director of the state council of defense; Frank F. Angellotti, chief justice of the state supreme court; Justice Warren Olney, Jr., Curtis D. Wilbur and Lucian Shaw, associate justices of the state supreme court; Benjamin Ide Wheeler, former president of the University of California; Ray Lyman Wilburn, president of Stanford University; Judge Maurice T. intendent of public instruction; Edwin C. Edgerton, chairman of the state railroad commission; Ralph P. Morritt, former federal food administrator in California; Rabbi Jacob Nieto and others.

STRICKEN WITH PARALYSIS

Tuesday evening Mrs. Lydia A. Smith, 315 West College avenue, was stricken with paralysis and the attack was peculiar. She was sitting in her chair and said she felt like fainting. Two of her daughters were there and hastened to place her on the bed and soon she remarked she couldn't see them. In a few more minutes she was unable to speak and in

ten minutes from the time laid on the bed she was speechless. The paralysis seems to have over the whole body and the fact that she was alive last night was regarded as remarkable, as her lungs seemed to be wholly congested.

The hard wheat crop has failed—in quality.

We have secured the best of it.

The 1919 hard wheat crop has failed in *quality*. The percentage of sound rich-in-gluten wheat is so small, that in order to secure it for *Valier's Enterprise Flour* we have had to pay an *unusually high premium*.

This we have gladly done, that you, with *Valier's Enterprise Flour*, might continue to bake those light, fluffy, delicious loaves of bread that are the delight of your family.

We have searched the country for this wheat. It has been selected for its high-gluten content, because it is rich-in-gluten wheat that makes the high-grade family flour. We have *always* paid a premium to secure selected wheat for

Valier's Enterprise Flour

This year, our premium is *greater* than ever. For this reason *Valier's Enterprise Flour* commands a higher price than *ordinary* flours; but it is *worth* it. While it costs more in the sack, it will cost *less* in the loaf. No matter what *ordinary* flour's cost, there is no *economy* in heavy, soggy, unappetizing bread.

This year, above all others, select *Valier's Enterprise Flour*. It means the same wonderful high-quality flour as *always*—it means for you *sure* results in your baking—it means those delicious, white, full loaves of bread that make home meals a joy.

In price and food value, white bread made from *Valier's Enterprise Flour* is more *economical* than any other food.

Take no chances—accept no other—demand *Valier's Enterprise Flour* from your grocer.

There are types in clothes as there are in people. Men of distinction wear clothes of a type that befits their personality. The fabric, the pattern, the color as well as the model is a character study and this store is alert to the requirements of the man of distinction. Style, quality and distinction at a fair price.

Rough-Finished Cheviot
The Newest

We extend a cordial invitation to those men who know and appreciate the beautiful in suit fabrics, to call and see our stock of the newest in rough-finished cheviots—soft tone grays, browns and mixtures. You will want a suit from one of these elegant fabrics.

SWEATERS We are showing the new all-wool "Slip-Overs" in several colors. Also Sweater Coats.

The Job of Insulation

Ordinary insulation nearly always gives way before the plates do, and the battery has to be reinsulated.

Willard Threaded Rubber Insulation protects the plates from the very beginning of the battery's life, and protects the car owner against the need of having the battery re-insulated.

Up in, and we'll tell you about some of the increases in life records that Threaded Rubber develops when it is made possible.

No cheaper in the most economical known. It costs and five times as much as other stuff and affords protection of tankage tured by us

He Won't Drop Dead Any More

"My husband suffered terribly from stomach and liver trouble, which caused such bloating of gas as to seriously affect his heart. Doctors warned him that he might drop dead at any time from this trouble. A friend in Cleveland advised him to take Mayr's Wonderful Remedy, and since taking it, 4 months ago, he is feeling like a young man again. All his friends are surprised at his appearance." It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at all druggists.—Adv.

SHE HAD TO SEND FOR HER MOTHER

Galesburg Woman Was on the Verge of Nervous Prostration.—Tanlac Restores Health.

"I have improved so much in health since I took Tanlac, my friends and neighbors hardly know me now and I can hardly believe it myself when I look in my mirror," said Mrs. Harry Hatfield, of 455 Day St., Galesburg, Ill., recently.

"I had been suffering for about three years," continued Mrs. Hatfield, "and was so badly run down in health and was so weak and nervous my mother had to come from Missouri to stay with me, because, at the time, I was right on the verge of nervous prostration. I couldn't stand a bit of noise and was so awfully nervous sometimes I was nearly frantic. I was in such bad condition I could hardly eat or sleep, wasn't able to do my housework and just did nothing but suffer day in and day out. No matter how little I ate, gas formed in my stomach and I suffered with terrible cramping pains and had such awful headaches sometimes I thought my head would split. I was troubled a lot with my kidneys, too, and my back ached so terrible at times I could hardly stand it. I finally got to where I never knew what a well day meant and was gradually getting worse and worse. I took all kinds of medicine for my trouble, nothing gave me a particle of relief and I got very blue and despondent.

LITERBERRY

The Passavant cafeteria supper on Wednesday night was a success. This benefit supper was not a one church affair but was gotten up and contributed to by every body in the village and community, many giving cash, that could not help otherwise; it was not a church affair.

Mrs. Dora Norton of San Antonio, Texas, was visiting relatives here last week. Ernest Young, who is at Passavant hospital for treatment is reported doing very well.

A few days ago the J. A. Liter firm received one thousand pounds of sugar on the morning freight. In one hour all of it was sold out.

McK. J. M. Daniels entertained the Mission Circle on Friday. This was the closing meeting of the year. Reports were given and plans made for another year's work. Refreshments dainty and good were served during the afternoon.

AFTER SUFFERING A WHOLE YEAR

Mrs. King Was Made Well by Lydia E. Pinkham's Vegetable Compound.

Iola, Kansas.—"I was a constant sufferer from female trouble for about a year. I had pains in back and stomach, in fact all over me, and was all run down. A friend of mine was cured of the same trouble by Lydia E. Pinkham's Vegetable Compound. I took it and it gave me health and strength and made a new woman of me. I cannot praise your Vegetable Compound too highly, and you may publish my testimonial as it may be the means of helping some other suffering woman."—Mrs. IRENE KING, 105 West Campbell St., Iola, Kansas.

The great number of unsolicited testimonials on file at the Pinkham Laboratory, many of which are from time to time published by permission, are proof of the value of Lydia E. Pinkham's Vegetable Compound, in the treatment of female ills.

Every ailing woman in the United States is cordially invited to write to the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for special advice. It is free, ready to bring you health and may save you life.

WILL HOLD ANNUAL SUPPER SATURDAY NIGHT

Members of the United Commercial Travelers will hold their annual picnic supper in Odd Fellows Temple, East State street Saturday evening. In the past the travelers have held their supper at Nichols Park but decided to make a change this year.

The members and their families will gather at the temple where supper will be served at 6 o'clock. A four piece orchestra will furnish music during the evening for dancing.

the bedtime food-

WHEAT-O-CORN is the food the children will most enjoy for their early bedtime supper. It is deliciously good and unusually nourishing. It combines the body-building nutriment of wheat and corn with a delicious flavor all its own. Second "helpings" are the rule.

Wheat-O-Corn is absolutely clean and pure. It is sterilized under tremendous heat and packed in air-tight cartons by machinery. No human hands touch Wheat-O-Corn during the process of manufacture.

Wheat-O-Corn is quick and convenient to prepare—only five minutes and it is ready to serve. Each package contains enough for forty big dishes. Order it from your grocer today.

The "Hummer" Manure Spreader

A Machine that will make the user more money for the amount invested than any other tool he can purchase and use on his farm. A most necessary tool in order to apply manure right. We must return to the soil something for what we take from it, and it is a crime to allow the manure to lay around as is so often seen on so many farms. Turn waste into profit, and be a happy, successful farmer.

He Won't Drop Dead Any More
"My husband suffered terribly from stomach and liver trouble, which caused such bloating of gas as to seriously affect his heart. Doctors warned him that he might drop dead at any time from this trouble. A friend in Cleveland advised him to take Mayr's Wonderful Remedy, and since taking it, 4 months ago, he is feeling like a young man again. All his friends are surprised at his appearance." It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at all druggists.—Adv.

LITERBERRY
The Passavant cafeteria supper on Wednesday night was a success. This benefit supper was not a one church affair but was gotten up and contributed to by every body in the village and community. Many giving cash, that could not help otherwise; it was not a church affair.
Mrs. Dora Norton of San Antonio, Texas, was visiting relatives here last week.
Ernest Young, who is at Passavant hospital for treatment is reported doing very well.
A few days ago the J. A. Litter firm received one thousand pounds of sugar on the morning freight. In one hour all of it was sold out.
Mrs. J. M. Daniels entertained the Mission Circle on Friday. This was the closing meeting of the year. Reports were given and plans made for another year's work. Refreshments dainty and good were served during the afternoon.

Do not miss the one cent sale today at Luly-Davis Drug Co.
AFTER SUFFERING A WHOLE YEAR
Mrs. King Was Made Well by Lydia E. Pinkham's Vegetable Compound.

Iola, Kansas.—"I was a constant sufferer from female trouble for about a year. I had pains in back and stomach, in fact all over me, and was all run down. A friend of mine was cured of the same trouble by Lydia E. Pinkham's Vegetable Compound. I took it and it gave me health and strength and made a new woman of me. I cannot praise your Vegetable Compound too highly, and you may publish my testimonial as it may be the means of helping some other suffering woman."—Mrs. IRENE KING, 105 West Campbell St., Iola, Kansas.
The great number of unsolicited testimonials on file at the Pinkham Laboratory, many of which are from time to time published by permission, are proof of the value of Lydia E. Pinkham's Vegetable Compound, in the treatment of female ills.
Every ailing woman in the United States is cordially invited to write to the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for special advice. It is free, ready to bring you health and may save you life.

WILL HOLD ANNUAL SUPPER SATURDAY NIGHT
Members of the United Commercial Travelers will hold their annual picnic supper in Odd Fellows Temple, East State street Saturday evening. In the past the travelers have held their supper at Nichols Park but decided to make a change this year.
The members and their families will gather at the temple where supper will be served at 6 o'clock. A four piece orchestra will furnish music during the evening for dancing.

SHE HAD TO SEND FOR HER MOTHER
Galesburg Woman Was on the Verge of Nervous Prostration—Tanlac Restores Health.
"I have improved so much in health since I took Tanlac, my friends and neighbors hardly know me now and I can hardly believe it myself when I look in my mirror," said Mrs. Harry Hatfield, of 455 Day St., Galesburg, Ill., recently.

"I had been suffering for about three years," continued Mrs. Hatfield, "and was so badly run down in health and was so weak and nervous my mother had to come from Missouri to stay with me, because, at the time, I was right on the verge of nervous prostration. I couldn't stand a bit of noise and was so awfully nervous sometimes I was nearly frantic. I was in such bad condition I could hardly eat or sleep, wasn't able to do my housework and just did nothing but suffer day in and day out. No matter how little I ate, gas formed in my stomach and I suffered with terrible cramping pains and had such awful headaches sometimes I thought my head would split. I was troubled a lot with my kidneys, too, and my back ached so terrible at times I could hardly stand it. I finally got to where I never knew what a well day meant and was gradually getting worse and, although I took all kinds of medicine for my trouble, nothing gave me a particle of relief and I got very blue and despondent.
"One day my next door neighbor dropped in to see me and begged me to take Tanlac, because she said she had found it to be a wonderful medicine and, as her improvement was noticeable, I felt encouraged and when my husband came home I told him about it and he got me a bottle that very evening. Tanlac seemed to help me almost from the first, so I kept on with the treatment and the results I got were certainly remarkable. My nerves began to calm down and I started to sleeping better and found my appetite was picking up and what I ate agreed with me. It wasn't long before that awful pain in my back disappeared and now I can say I am completely relieved of all my trouble and am perfectly well and strong again. I now eat three big meals every day and never have any uncomfortable feeling in my stomach afterwards and can sleep fine every night and my nerves are so strong you couldn't tell I had ever been nervous at all. I feel bright and happy all the time now; in fact, I seem like a different person altogether, and am so thankful for the way Tanlac has helped me I can't keep from talking about it and my husband tells me people will get tired listening to me praise Tanlac, but I just don't care, because a medicine that will do so much for a person ought to be talked about."
Tanlac is sold in Jacksonville by Coover & Shreve, in Meredosia by Mr. R. B. Fields, in Murrayville by M. E. Gilbert, in Waverly by the Wylie Drug Co., and in Woodstock by the Hoy Pharmacy.

BOUND FOR CALIFORNIA
Mr. and Mrs. B. M. Shaffer of Wausan, Ohio, rode into town yesterday in a magnificent Dodge sedan car bound for Long Beach, California. The car was the property of D. H. Shoop, a banker of Wausan, who has a winter residence in California and to get his car out without mishap or mistake he was having it driven by Mr. and Mrs. Shaffer who were much enjoying the trip.

The "Hummer" Manure Spreader
A Machine that will make the user more money for the amount invested than any other tool he can purchase and use on his farm. A most necessary tool in order to apply manure right. We must return to the soil something for what we take from it, and it is a crime to allow the manure to lay around as is so often seen on so many farms. Turn waste into profit, and be a happy, successful farmer.

REGULATIONS STRICT
Triest, Monday, Sept. 22, Precede Bulletin—(By The Associated Press)—So strict are the regulations prevailing at Fiume that it is impossible for even the allied commanders to enter or leave the town.
American headquarters has been established on board the Cruiser Pittsburgh, under command of Rear-Admiral Phillip Andrews which is anchored at Abbazia, on the Bay of Fiume, five miles northwest of the town of Fiume.

A Remarkable New Toilet Soap of Two-fold Value

Remmo Sterilized Toilet Soap cleanses—and it beautifies.

It removes skin impurities and restores the gratifying charm of complexion beauty.

It serves a double purpose—and serves it most satisfactorily.

Remmo Sterilized Toilet Soap is made strictly of the purest ingredients—by one of America's oldest manufacturers of quality soap.

To insure the purity of Remmo Soap, each ingredient is sterilized at 198 degrees Fahrenheit—it is the purest of soap—made pure—kept pure.

Its soft creamy sterilized lather works down into the pores—then washes out bringing all dirt and accumulations with it. It removes the greatest of complexion destroyers—ground in, buried dirt. It opens the pores—permits them to function naturally—then the skin is soon flushed with a natural glow of beauty. Beauty that remains because it is not of an artificial nature.

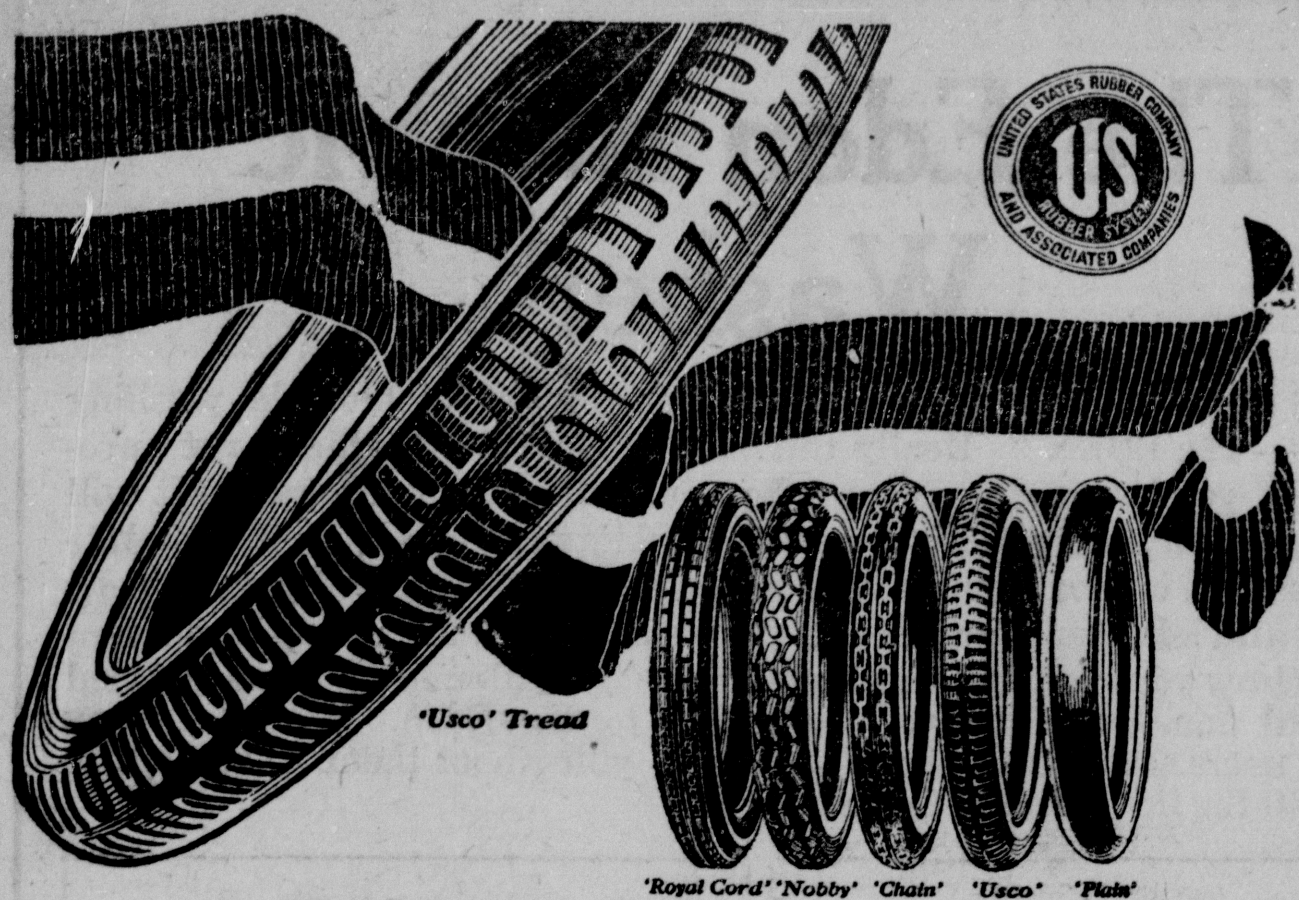

Remmo Sterilized Soap is not a medicated soap—no undesirable odor. Simply the purest of toilet soap perfumed with a most delightful fragrance.

Made in a convenient sized cake for travelers. The ideal soap for home or away from home use—so inexpensive it may be used as freely as ordinary toilet soap. You must use toilet soap. Why not use the most beneficial? It costs no more.

THE OBSERVATORY

"The other day we saw a well-to-do farmer's son pay \$13 for a silk shirt," reports Gomer Davis. "The father says it's awful hard to save much money on the farm these days—the price of threshing and farm labor is so high."

The fact that 51,000 Smiths served in the war recalls to the Pratt Tribune the words of the poet, "The Smith, a might man was he."

Speaking of lopsided liberty, the New York World says a man has a right to wear a straw hat all winter if he likes, and to protection in that right. And at the same moment the World demands that the senators stop talking about the treaty right now and ratify it as the president dictates.

The sorority "rushing season" is on at the colleges and the newspapers are having their usual fun at the girls' expense. However, the rushing system of choosing girl candidates is about as good as any other yet devised. That's the way many very good wives are won. The same results should be attained with probably less fuss if the rushing were done at the close of the school year instead of at the beginning, but half the fun would be gone.

Wm. Grubbsfield has returned from a visit at his former home in Tennessee. While there the fearful riots in Knoxville took place. A negro was accused of mistreating a woman and was arrested and spirited away by the sheriff. Skin Eruption Causes

Unbearable Itching

Scratching Increases the Irritation of the Delicate Skin Tissue

You can claw your nails into your skin until it bleeds, in an effort to obtain relief from the itching and burning caused by skin diseases, but you only increase the irritation and pain.

And you can pour ointments, salves and lotions by the gallon on the irritated parts, without obtaining anything but temporary relief. Just as soon as the strength of the counter irritant give out, your pain and torture will return with increased violence, because these local remedies have not reached the source of the trouble.

The real source of all skin disease is the blood supply. The blood becomes infected with some

impurity, and the disease germs break out through the delicate tissues of the skin. They may appear as eczema, tetter, boils, pimples, scaly eruptions, caused by disease germs in the blood.

The real cure, therefore, must be directed through the blood. And no remedy has yet been discovered that equals S. S. S. for any disorder of the blood. This great old remedy rids the blood of every trace of disease germs, and clears up the complexion and gives it the ruddy glow of perfect health. Get a bottle at your drug store today and you will soon be rid of your tormenting skin trouble. Write at once for expert medical advice regarding your own case. Address, Medical Director, 263 Swift Laboratory, Atlanta, Ga.

Happy Mothers

Many mothers who in order to keep the home neat and attractive, the children well fed and dressed, continually overdo.

The experience of motherhood alone causes a severe strain upon the system, from which many women recover slowly, and serious feminine disorders may develop unless great care is taken to prevent them.

To such women Lydia E. Pinkham's Vegetable Compound is invaluable. For many years this root and herb medicine has been recognized as the standard remedy for woman's ills, restoring them to a normal, healthy condition.

Mrs. Morgan's Case

East Hampton, N. Y. — "For two years I suffered with a female weakness, pains in my back and painful periods, and I was so weak and tired that I was not able to do my work. A friend told me to use Lydia E. Pinkham's Vegetable Compound and it gave me great relief. My pains left me and I am now able to do my work and feel fine. You can publish my testimonial and if your Vegetable Compound does others as much good as it has me I will be very much pleased."—Mrs. CHARLES E. MORGAN, CARE OF E. L. DENNETT.

A Word to Childless Women

There are women everywhere who long for children in their homes yet are denied this happiness on account of some functional disorder which in many cases would readily yield to Lydia E. Pinkham's Vegetable Compound.

Such women should not give up hope until they have given this wonderful medicine a trial.

JOE JACKSON'S SINGLE

CINCHES PENNANT

Uphill Game Played by Chicago Team, Scoring Two Runs in Final Session — Cicotte Unsteady and Relieved by Kerr—Other Games.

Chicago, Sept. 24.—Chicago today won the American League pennant defeating St. Louis 6 to 5. Joe Jackson's single in the ninth inning was the blow which made Chicago the club which will meet Cincinnati, winners of the National League pennant on October 1 for the championship of the world.

Chicago played an uphill game and it rested with little Dick Kerr to pull the local club thru. Kerr started the ninth inning rally with a single to left. Liebold followed with a single in the same direction and McMullin walked, filling the bases. Weaver fled to Jacobson and Kerr scored after the catch, tying the score. Jackson then delivered his hit to right center and sent Liebold home with a run which gave Chicago the championship of the American League.

Cicotte was unsteady and gave way to a pinch hitter in the seventh inning. Eddie Murphy, who went in for him, was instrumental in the local scoring two runs and putting Chicago within a run of tying the visitors. Schalk singled and Murphy forced him at second. Liebold followed with a single, and Murphy and Liebold scored on E. Collins' triple. Collins attempted to score in this inning and the play at the plate was

so close that Collins' argument resulted in his banishment from the game.

The visitors made their runs by bunching hits off Cicotte.

Columbus, O., Sept. 24.—In a program of Grand Circuit events full of good stakes, and in several of them good strong competition on a good track, most of the favorites won today.

McGregor The Great took the 2:12 Buckeye trotting event from Mariendale without trouble. In the board of trade 2:05 pace Sando won in straight heats in three hard miles. The time of 2:02 3-4, made in the first heat was the fastest mile of the meeting.

The Chamber of Commerce 2:08 trot was won by Don de Lopez, which Murphy drove for the Western Horseman Futurity had only four starters. Periscope won, after dropping the first heat by a break. Don J. took the unfinished 2:12 pace left over from yesterday.

SOMEWHAT SUGGESTIVE

There is a very bright young lady pupil at the State School for the Blind. Her name is Miss Outlaw and she hails originally from Guntown, Texas, though her home is temporarily in Illinois which enables her to attend the school here. She is a natural musician and is studying piano, cornet, organ and violin and desires to devote herself to evangelistic work in the Lone Star State. Her aims are far more pacific than her name and the name of her residence and she seems to be a very worthy, deserving young person.

The "Hummer" Manure Spreader

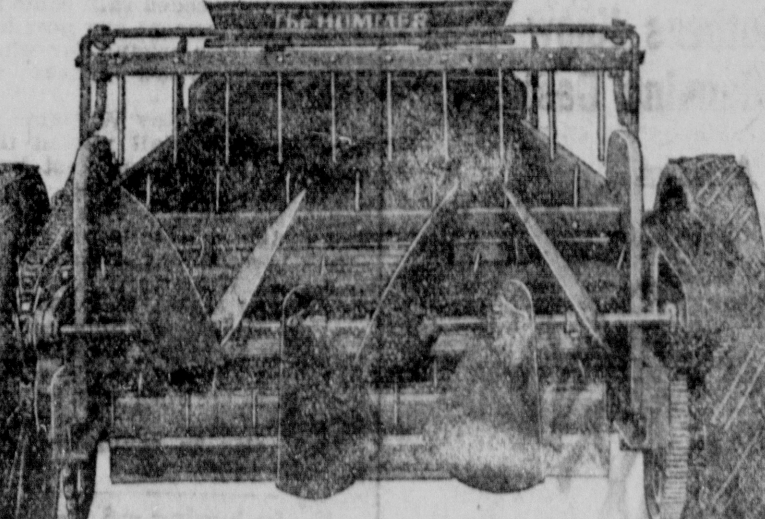

A Machine that will make the user more money for the amount invested than any other tool he can purchase and use on his farm. A most necessary tool in order to apply manure right. We must return to the soil something for what we take from it, and it is a crime to allow the manure to lay around as is so often seen on so many farms. Turn waste into profit, and be a happy, successful farmer.

BOUND FOR CALIFORNIA

Mr. and Mrs. E. W. Workman of Los Angeles, and niece, Miss Helen Daum, of Dayton, Ohio, arrived in the city yesterday on their way to Los Angeles. Mr. Workman was for many years a newspaper man and shows the effects of his training by his courtesy and politeness to a reporter. He has been for several months with the A. G. Barnes show as auditor but resigned to go on home. They were traveling in a fine Sedan and were admirably equipped for the journey and were camping by the way.

K. S. Oakley and C. H. Cramer of Bloomington were attending to business matters in the city yesterday.
